TELEGRAPH KEYS.

Threats of the Brotherhood that the Sounder Shall Cease to Click,

Unless Their Demands are Complied With—Their Bill of Grievances—The Increase in Wages Demanded.

PITTSBURGH, July 18.—This city is the headquarters of the Telegraphers' Brotherhood, and the feeling here is intensified as the limit allowed to the company for decision approaches. One of the highest officers in the order said last night: "If the Western Union Company does not make the concessions asked for in the bill of grievances by noon to-morrow, the telegraph keys in all the offices will be closed, and the sounder will not click until we come back to the offices with victory resting on our banners. We will accept no compromise. We have made exceedingly moderate demands. If the company does not wish to give us our rights, they will be responsible for the strike. If the demands embodied in the bill of grievances are not acceded to at noon on Wednesday, and a strike ensues, our present bill of grievances, asking for an advance in wages of fifteen per cent., will be withdrawn from the consideration of the officials of the Western Union Telegraph Company, and the original bill of grievances, prepared one year ago, will be presented as our ultimatum." "What does the original bill of grievances contain?" inquired the reporter. "It contains the section which reads that the universal increase of twenty-five per cent. in all salaries now paid be granted; that all extra work, including Sunday work, shall be paid on the basis of five hours for a full working day."

Confident Tone of the Western Union People.

SAN FRANCISCO, July 18.—The sentiment of the public generally and the expression of opinion published in the newspapers of this city, seem adverse to the proposed strike of telegraph operators. It is held that if any real grievances exist, their demands are badly formulated and will only tend to defeat the object desired. No serious difficulties are apprehended by Superintendent Jaynes, who states that the Western Union authorities at all points are confident of being able to supply the places of all strikers within a few days, even should a strike take place. The probabilities, therefore, are that the inconveniences to the public would be of but short duration.

OUTLAWRY IN THE SOUTHWEST.

Beating the Bushes for Bandits in Arkansas.

ST. LOUIS, July 18.—People in the southwest corner of Missouri and the northwest corner of Arkansas are beating the bushes for three scoundrels who may decorate a tree. They are wanted for the robbery of a farmer named John Flynn, living on the Missouri and Arkansas line. On the night of the 15th inst., about midnight, Flynn and his family were aroused by the men bursting into their sleeping room, demanding all the money in the house. Two daughters of Flynn attempted to leave the room, when the robbers fired on them, wounding one in the arm and the other in the shoulder. Flynn himself was knocked down with the butt of a revolver, his wife fainted from terror, and the bandits then hastily plundered the house, securing $400 or $500. This sum was the proceeds of a cattle sale made by Flynn some days previous. Mounting their horses, they then rode away.

GENERAL DISPATCHES.

Mysterious Restoration of a State Treasurer's Stolen Ledger.

NASHVILLE, Tenn., July 18.—The missing ledger in which the balances of State depositors were kept, which was stolen from the State Treasurer's office last week, was found on the steps of the American office. It was inclosed in a paper wrapper addressed to the editor of the American, with an instruction to turn it over to the proper authorities and make his own terms about the reward. The book, upon examination, was found to be intact, without mutilation or erasure in any part.

The Raided Union Pacific Conductors.

OMAHA, July 18.—The Union Pacific has made another raid on the passenger conductors. Every train has a new conductor, and it looks as though there was to be a clean sweep. Nothing can be learned as to the cause or number to be discharged. This is the second time within a few months that a summary change of conductors has been made.

Fistic Announcement.

NEW YORK, July 18.—Mace and Slade will leave for San Francisco in a few days, to give exhibitions. The fight between Slade and Mitchell is fixed for the 11th of September. Slade will go into training at Kansas City three weeks previous to that date.

The First Arrest.

BOSTON, July 17.—The first arrest in this section of the country under the new Chinese law was made here to-day by the United States Marshal.

A Dastardly Act on the Rail.

KNOXVILLE, Tenn., July 18.—At 1 o'clock this morning, a mile east of the city, at the zinc works, the eastern-bound express train, going at full speed, was thrown from the track by a misplaced switch. The train struck four coal cars on a side track, demolishing the engine. The engine jumped the track and ran into the main building of the works of the Valley Zinc Co., tearing away the whole side of the building, playing havoc with the machinery. The locomotive and tender were turned over, the mail car torn to pieces, the express car damaged. Damage to the Railroad Company, $10,000; damage to the Zinc Company, $6000. The railroad offers a large reward for the apprehension of the scoundrel who broke the lock and changed the switch.

Philadelphia Items.

PHILADELPHIA, Pa., July 18.—Solemn pontifical mass of requiem was celebrated to-day for Archbishop Wood. Bishop Becker officiated. Bishop Strachan distributed a panegyric.

The Produce Exchange has agreed to co-operate with the Commercial Exchange in urging upon Congress the redemption, retirement or legalization of the trade dollar.

A California Pioneer Drops Dead.

TRUCKEE, Cal., July 18.—Wallace M. Allen, an old and popular citizen of Truckee, dropped dead at his home this noon of heart disease. Mr. Allen was one of California's early pioneers, and his death will be lamented by numerous friends all over the State.

OGDENSBURG, N. Y., July 18.—Courtney said if Hanlan did not cut his (Courtney's) boat at Chautauqua his (Hanlon's) money did it. Hanlan said Courtney was a liar and a thief. Wallace Ross having appointed Courtney as his judge in the race, Hanlan has made a formal protest to the committee against Courtney acting in that capacity.

NOBODY CAN DENY.

Consumers can depend upon the NEW ENGLAND BAKING POWDER as being exactly as represented. It is Cream of Tartar and Bicarbonate of Soda of perfect purity, scientifically combined; NOTHING ELSE.

The price of the NEW ENGLAND BAKING POWDER justifies the use of the very best materials. Consumers pay a fair price for the best and get it.

It is self-evident that Baking Powders represented to be composed of the same materials as the NEW ENGLAND, and which are sold to dealers at less than the pure materials themselves are worth, cannot be pure.

The large demand for NEW ENGLAND BAKING POWDER, and consequent falling off in sales of adulterated and inferior powders, has developed a spitefulness on the part of some manufacturers and dealers. Finding that the quality of the NEW ENGLAND cannot be successfully attacked, new brands and close imitations, represented to be as good, are put on the market. With these they endeavor to tempt dealers with low prices, and thus impose on consumers.

See that the name NEWTON BROS. & Co. is on every can.

Seaside Camp.

ARRANGEMENTS FOR

SUMMER SEASON, 1883.

A CAMPING GROUND has been established on PACIFIC PARK BLOCK, fronting the Beach at

WILLMORE CITY,

the new Seaside Resort on the American Colony Tract. The camping ground is supplied with good, soft water, piped from flowing artesian wells. The Beach abounds with shells and sea-moss, and is always a delightful drive, excepting at extreme high tide.

SURF BATHING

can be enjoyed at all times with perfect safety, free of undertow and sea-weeds. The Bath-houses and Pavilion, now being built, will afford ample bathing facilities. Bathing suits furnished and suits taken care of at very reasonable rates by the bath-house keeper. A Feed Corral is located near the Camp, where hay and grain will be sold and horses kept at reasonable rates, also wood furnished to campers. No saloons where intoxicating liquors are sold will be permitted in the Camp nor on the premises.

TENTING PRIVILEGES FREE,

but there will be a small charge for use of water for domestic purposes. Willmore is reached by good roads from all parts of the valley, and by railroad with horse car connections at Willmore Station, from Los Angeles.

We invite all order-loving and well-disposed persons to make this their summer seaside resort.

Choice Seaside Building Lots for sale at $50 to $100 each. For circulars and maps and for all further information address or apply to

THE GLENWOOD

A Summer and Winter Resort for Pleasure and Health.

Riverside, San Bernardino County, Cal.

THE GLENWOOD is universally recognized as one of the best and most attractive hotels in the State. It occupies an entire block of two and one-half acres, centrally located, with pleasant surroundings in the way of fruit and ornamental trees, flowers and shrubbery. Around the building, on both floors, are broad balconies, forming fine promenades, aggregating a quarter of a mile in length, part of which are encased with glass and trellised with vines. The sunlight reaches every room, and they are all easy of access from broad halls and balcony. Baths and closets, electric bells, and all the modern improvements to be found in a first-class hotel. Open grates and stoves afford opportunity for fires when desired. Parlors, reading room, office and dining room all on first floor, spacious, sunny and convenient.

Times Telegrams

(Western Associated Press Night Report.)

THE BRASS-POUNDERS.

Latest Phases of the Telegraphic Trouble.

Probable Adjustment of the Difficulty—Report of an Agreement Satisfactory to Both Sides.

SAN FRANCISCO, July 18.—Notwithstanding statements contained in telegrams from the East that the telegraph operators' strike would reach its climax at noon there, or 9:15 a. m. in this city, up to noon no indications of a decided movement are reported. Further news is expected at any moment.

An Inquiry Into Grievances.

NEW YORK, July 18.—At the regular weekly meeting of the Executive Committee of the directors of the Western Union Telegraph Company to-day, the following was adopted:

Resolved, That a committee, consisting of ex-Gov. Cornell, J. W. Clenden and John T. Terry, be appointed to inquire into the complaints of inequalities in compensation and the condition of the service of the employes of this company, if any, and report to this committee.

Still Restless.

NEW YORK, July 18.—A feverish feeling exists in telegraphic circles over the threatened strike, every person interested anxiously awaiting the result of the meeting of the Executive Committee. The Western Union Directors' Committee of the Brotherhood held a meeting early this morning, but what transpired there could not be learned. Cipher dispatches have been received by the committee from various points stating that operators are in readiness to leave their desks at a moment's notice.

General Eckert Sustained.

NEW YORK, July 18.—One of the gentlemen who attended the meeting says the sentiment was unanimous in support of General Eckert in his reception of the committee who called on him to present a memorial on Monday last. The meeting did not take cognizance in fact of the petition, since it was held that whatever complaints employes of the company might make must be made directly by themselves to the company's officers. The Wheatstone is a system of rapid transmission of business and news. It has been in use many years in England, but is comparatively a new thing in this country. Instruments will do nearly ten times the business that can be done over the ordinary wire. Should the Wheatstone operators remain and the other operators strike the telegraph company would have considerable advantage through the use of this system. Members of the Brotherhood claim that nearly all the Wheatstone operators will go out, while the officers of the company say not more than two or three of the nineteen local employees, and not a large number of those elsewhere, will consent to strike.

The Telegraph Difficulty Settled

SAN FRANCISCO, July 18.—Superintendent Jaynes has received intelligence that the telegraph operators' strike matter has been arranged; particulars not yet to hand, but it is believed that the questions involved have been settled on a satisfactory basis to both the operators and the company. A leading member of the Brotherhood in this city has assured all the operators that they will be perfectly satisfied with the result when they learn it to-morrow.

Coast Telephone Men Satisfied.

SAN FRANCISCO, July 18.—General Superintendent Sabin, of the Telephone Company, says respecting the strike of the linemen to-day: "Chicago exercises no influence on the employees of this coast, who are satisfied with both their work and pay."

A SECOND SUEZ CANAL.

DeLesseps Reassured by the Attitude of American Contractors.

PARIS, July 18.—Reports made by DeLesseps at the meeting here yesterday of the Panama Canal shareholders say the co-operation of American contractors had dispelled the prejudice existing in certain parts of the United States against his constructing the canal. A sentiment of security prevails among Americans; they recognize that those who have undertaken the great work of building a canal across the isthmus have no "object in view but the removal of the material obstacles to beneficial intercourse."

A Royal Commission of Canal Builders.

LONDON, July 18.—At a special meeting to-day of the London Commerce resolutions declaring that the question of the construction of a parallel Suez canal should be offered to a royal commission.

Charles De Lesseps.

LONDON, July 18.—Charles De Lesseps is expected here on Thursday to continue negotiations with the British government relative to the Suez Canal project.

General Wood Returned to Cairo.

LONDON, July 18—General Sir Evelyn Wood, commander of the forces in Egypt, who embarked at Suez for England, has returned, by order of the Khedive, in consequence of cholera in Cairo.

Deaths in Cairo.

CAIRO, July 18.—The number of deaths from cholera in this city during the last twenty-four hours ending at 8 A. M., is 62.

Candidates for the Army.

WASHINGTON, July 18.—The President has designated Z. B. Vance, son of Senator Vance of North Carolina, Chas. D. Clay of Kentucky, a grandson of Henry Clay, and J. Harry Duval, of Pennsylvania, to appear before a Board at Fortress Monroe on the first of October, for examination for second lieutenancies of infantry. These, with twelve designated from civil life formerly made with examination, is successfully passed to fill vacancies existing in the army to July 1st. In case these young men fail to pass examination, other designations will be made by the President.

Matrimonial Troubles of Actors.

NEW YORK, July 18.—A motion is pending in the Supreme Court to confirm the report of the referee in the suit of Mary Tearle against George Osmond Tearle, actor. The referee reported in favor of an absolute divorce. An application for $4500 per year alimony (half of defendant's income), and $100 counsel fee, was also made in behalf of plaintiff. In behalf of the defendant it was claimed that $4500 was amply sufficient for the comfort of defendant.

San Bernardino will be well represented at Santa Monica in future. A number of our people have purchased there and are erecting summer residences. The latest of these is R. W. Waterman, who has just purchased two lots there upon which he will shortly put a neat summer cottage.

Russia is not the worst place in the world. They will not allow children under twelve years of age to work in factories there, and those between twelve and fifteen must not labor over eight hours a day.

THURSDAY, JULY 19, 1883.

NOBLE CHARITIES.

There is no charity more beneficent than that which remembers the little children. In our large cities, during the heat of Summer, there are none who suffer more from sultry heats and the lack of pure air than the pitiful waifs of humanity crowded into the miserable tenement houses on the narrow back streets, where poverty and squalor, hunger and want abound, and life is hardly more than a lingering existence. Modern philanthropy has had its attention turned towards the best methods of alleviating the discomforts and sufferings of the children whose tender years know nothing better than want and privation; whose eyes have opened to the light of this world in dingy attics, in crowded, ill-ventilated flats, and in damp, dark cellars, and every year the channels of benevolence are widening, and fresh charities are organized to take away, if only for a little season, the children of the tenement houses, and the homes of destitution, wherever found, out into the pure atmosphere of the country, where they can get a glimpse of the world as God made it, outside of the heated walks of the great city. Washington City has built her beautiful home for these hapless children on breezy heights, and in the midst of green fields and overhanging trees, and the National Capital has no monument to its benevolence to which it may so justly point with pride as this. New York, Philadelphia and other cities have their organized weekly excursions, which are the only lights shed upon the darkened childhood of thousands. It is gratifying to note, too, that our great metropolitan journals are not behind in these noble charities. The New York Tribune has its "Fresh-air Fund," and only a few days ago it sent out four hundred and sixty-two children into the country. And they were not allowed to go hungry. They were provided with 1700 biscuits, 2000 cakes, 260 quarts of milk, 5 hams, 135 pounds of beef and 1000 bananas. Surely for once they must have known the meaning of plenty. Such a day will be a green spot in their memories through all the coming years, and to how many it may prove a memory that shall stir within them desires for a better life, and relieve them from the influences of evil surroundings, we do not know. Out from these depths of poverty and vice in our large cities may come some of the leading spirits of our nation's future, saved and enabled and prepared for better things by the recollection of the days when they were taken by a kindly charity into a world where they could be released for a few hours at least, from the foul atmosphere of their daily life and breathe the pure air of heaven. "Inasmuch as ye have done it unto one of the least of these," saith the Master, "ye have done it unto me."

CHICAGO has a "single-wheel buggy company," which has been incorporated with a capital of $1,800,000. It is a new departure in the buggy line, and those interested claim that "there's millions in it." The invention consists of a wheel which will be attached to a horse by means of a pair of buggy shafts, and which will carry at the other end a buggy seat. The inventor claims that by means of his new contrivance absolute safety in driving is secured, as the wheel can only tip or turn over in case the horse does the same thing. Besides, he claims that his new vehicle can get anywhere a horse can get, and that the horse will be able to make greater speed in this contrivance than in any sulky of the old pattern. If the invention is all that it is claimed to be, it is destined to win its way to popular favor.

THE Rancho Lomas de Purificacion, comprising about thirteen thousand acres, one of the large estates of Santa Barbara county, has been ordered subdivided by the Superior Court of that county, in response to a petition from the heirs praying for a decree of partition. The result of this will undoubtedly be further transfers and sales, the division into small farms, and the building up of many new homes, each of which will contribute its quota to the prosperity of the county.

IT is reported that Chinese immigration will soon set in in a steady tide towards Mexico. There is a wide field there for common laborers of some sort in the mines, and in the construction of the great network of rail roads that a few years will see built in that country.

WASHINGTON CITY has the reputation of being cooler and healthier in the summer than cities a good many hundred miles further north. The Potomac is a highway by which cool breezes creep up from the sea.

THE LOUISVILLE SCHEME.

OUR Bourbon-Democratic contemporary, the Los Angeles Herald, quick to scent partisan politics in the circumambient breeze, does precisely what we expected it would do, viz., takes exception to the statement of the TIMES that the present development of Los Angeles county, (so far as it has been accomplished through immigration) is mainly due to Northern capital, Northern men and Northern energy. The Herald charges us, of course, with "sectional bigotry" in making the statement, and professes to believe that it was a very "ungraceful break" on our part. It's of no consequence to us what the Herald thinks or says on that point, so long as the fact remains, which we reaffirm. We'll take the risk of being "ungraceful" for the sake of being right. The Herald points out a fact not in dispute, and which we readily concede, namely, that a few Southern men (naming some of them) have been among the foremost in the work of development here. But one swallow don't make Summer, and a handful of enterprising men from an unenterprising section don't and can't develop a county. We said nothing about individuals, nor yet of politics, but spoke of the comparative lack of interest in California existing south of the Ohio river—a well-known and indisputable fact, whatever the Herald may choose to assert to the contrary. We spoke of immigrants as a class, and we undertake to make good the assertion that it is to the Northern immigration into Los Angeles county that the bulk of her prosperity is due. We undertake further to say that such an exhibit as it is proposed to send to Louisville would, if exhibited at a similar gathering in Cincinnati, Chicago, St. Paul Minneapolis, Kansas City, Philadelphia, New York or Boston, arouse tenfold the interest in our section that will be aroused by the Louisville exhibit, (if one is made) and would bring us ten times the number of desirable immigrants.

Nevertheless we do not oppose the Louisville scheme if it can be carried out as it should be. But we shall oppose all half way work, as well as every scheme to put the exhibit into the hands of an incompetent and unfit man. It is generally a pretty safe rule to look with suspicion upon the persons who on such occasions are most clamorous to get a "job" of this kind. We want a commissioner to take charge of the exhibit who understands himself, the country, and the needs of the occasion, and who goes with some other motive as his chief incentive to action than the desire for a little cheap notoriety and an itching to get hold of the money subscribed by a confiding and too generous public.

There was another scheme advanced at last Saturday's meeting to which we are opposed in the interest of the people. That is the scheme to send a lot of "assistant managers" along with the big toad in the puddle, on the weak plea that different sections of a region which have common interests require each a separate representative to look after their exhibits. This is plainly a mere pretense, advocated by men who want a "job" either for themselves or some friend. One man, if he is the right man, can take efficient charge of the entire Southern California exhibit; and if he is fit to be trusted at all, he is fit to be trusted by all the sections interested. We say this without an eye to any particular man or section. We shall be perfectly satisfied to have the commissioner drawn from any part of the region that makes up the exhibit, provided he is a suitable man. The desires and ambitions of individuals must be made subservient to the common good. A lot of representatives, escorting the exhibit as though they were pall-bearers and it were a hearse, are needless; they would only be a junketing party, living riotously on the money of our people, which ought to go to pay the legitimate expenses of a legitimate exhibit.

But perhaps our people won't put up for a scheme which is at best of doubtful expediency, as outlined? *Quien sabe?*

CONCERNING that bastard brochure, the Board of Trade pamphlet, a city cotemporary draws attention to one fact connected with its issuance, which the TIMES, in a moment of too great forbearance, refrained from exposing. That is the crooked and underhand manner in which the contract for the printing was awarded. Competitive bids were called for, it is true, but evidence is not wanting that it was foreordained by the clique having charge of the work that it should be given, whether or no, to a son of the President of the Board of Trade—an apprentice boy who carries on an obscure "snide" printing office, having no standing among the regular book-making establishments of the city. This in itself was a piece of gross indecency under the circumstances; but add the other fact that the bid accepted was *not the lowest and best*, according to the manifest intention of the Board when it instructed its Secretary and committee to have the pamphlet printed, and the act of making the award becomes nothing less than a breach of trust—a violation of orders and a piece of gross and disgusting personal favoritism. The bids of the respectable printing-offices were of course made on the basis of putting good work into the pamphlet—good book paper, good type, correct proof reading, good press-work, good binding. The successful bidder, though possibly a trifle the lowest, was coolly permitted to use a very common quality of news print—in short, to turn out a "measly," a beastly, a bastard job, and take the Board's money for his libel on the printers' art. The contract was not awarded to the "lowest *and* best" bidder, and therefore the Board has been swindled by the agents whom it intrusted with the duty of honestly executing its mandates.

THE value of experiment has been shown by a Martinez fruit-grower who tried the simple plan of catching the codlin moth by hanging on the trees cans containing a mixture of vinegar, water and molasses. As a result of the experiment he reports that in eight days he caught in twenty-nine cans one thousand eight hundred and twenty moths, besides several quarts of other insects. The experiment is surely worth the trial.

FOR the nine months ended with March 31st last the total receipts of the Postoffice Department were $33,946,356, and the expenditures were $31,436,914, leaving a surplus of $2,509,442. The surplus for the last quarter of the fiscal year, or from April 1st to July 1st, when the receipts shall have been footed up, will no doubt increase the total excess of receipts over expenditures to over three and a half million dollars for the year. The reduction of letter postage will cut down the receipts for the current fiscal year, but the indications are that there will not be as large a deficit next July as has been estimated. The Postoffice Department would have made a very different showing from this had not the star-route bloodsuckers been shaken off.

MEN AND WOMEN.

Mme. Modjeska is a firm believer in dreams.

The Crown Princess of Denmark is six feet three inches in height, and though fond of dancing, has trouble in finding a suitable partner.

Mrs. Livermore says: "Alone, man grovels and woman cannot rise; but together, like two birds with one pair of wings, they soar heavenward."

The Duchess of Edinburgh, it is said, "is never known to smile." Unhappily she is the only daughter of a murdered Czar, and the sister of another whose head is trembling under the weight of his crown.

Mrs. Celia Thaxter, who is not only a poet, but a painter of much taste and skill, is not satisfied with her present acquirements, and is studying with a distinguished artist with as much ardor as if she intended to make painting her profession.

Mrs. Gladstone, who was described by Disraeli as "without a single redeeming vice," usually wears a rusty black silk costume, with well-worn boots and gloves. She avoids fashion, that she may save money for the poor.

Miss Stone, the daughter of Stone Pasha, who was formerly an American General, and recently in the service of the Khedive, is said to be one of the most accomplished linguists in the world, and the best Arabic scholar of her sex.

Beecher has made a careful study of the question, and concludes that the world is really no worse than it would have been if he had made the whole of it himself.

Justice Bradley, of the United States Supreme Court, claims that he has discovered the exact date of the crucifixion, and can demonstrate that it took place on the 7th of April, A. D. 30.

Hugh Hastings edits his New York newspaper from Albany, where he resides a portion of the year. He sends his copy by mail, which arrives in New York in time for the first evening edition.

The cable announces that one of the Russian Cabinet Ministers has embarked in journalism. Count Tolstoi, the Minister of the Interior, has purchased the Golos for 400,000 roubles, or about $300,000.

Mme. Christine Nilsson has left London to pass a month at Schwalbach, but she will return to London on August 1st and sail thence for America on the 13th.

POLITICAL NOTES.

Iowa has paid off her war debt and has enough money in the Treasury to meet every outstanding obligation. Her finances are therefore in good shape to meet the threatened overturn by the Democrats. It appears absurd to predict that Iowa will go Democratic, but it must be borne in mind that the issue is very much the same as it was in Kansas last year, when the Democrats carried that hitherto impregnable Republican stronghold. But, though Iowa should go Democratic this year on the liquor issue, it would, of course, have no significance for the Presidential year. Then the State is as certain for the Republicans as it ever was.—[Alta.

There is a ripple of the Arthur boom up in New Hampshire. Ex-Governor Smyth says the first choice of the Republicans of that State for President is the present incumbent.

The old-line Republicans of Virginia have issued a call for a meeting of their State Committee on the 19th, with the avowed purpose of taking part, as an organization, in the fall campaign. The Legislature to be elected will reapportion the State into congressional districts. The Republicans will take the field in open hostility to Mahone, and any members of the Legislature elected by them will very probably act in co-operation with the Democrats on the redistricting question.

Governor Pattison, of Pennsylvania, is the champion vetoist. He killed sixty bills passed at the last session of the Legislature with his little pen, and Republican, as well as Democratic papers, applaud him for it. In using his discretionary executive power he seems to have slaughtered Democratic schemes and jobs as mercilessly as those of the opposite party.—[Washington Star:

Indignantly Denied.

San Francisco Chronicle.]

Ex-Governor Hendricks of Indiana has been a Presidential quantity for many years. For some time he has talked in a gloomy strain of the political prospects of the country and has intimated that he was out of public life. Recently Senator Voorhees, acting in the interest of McDonald, has spread the report that Hendricks would not be a candidate for the Presidency. This the Hoosier statesman has indignantly denied and the politicians look on this denial as a declaration of war between the two factions of the Indiana Democracy. The early boom in Presidential talk which has broken out shows that next year will be a lively one in national politics.

A Weak Claim.

Kansas City Journal.]

The people have voted with the Republican party not because they thought that everybody in it was honest or supposed that Republicans never betrayed trusts and never belonged to rings. They have voted with the Republican party because it possessed principles, and at the greatest did not have any more rascals than the Democratic party. Whereas the Democratic party has never had anything to commend it to the people except the weak claim that it has discovered some bad men in the opposition.

Up on Their Hind Legs.

Farmers' Journal.]

Some so-called Democratic papers are up on their hind legs and swear by all that is holy that the fight against the two black-hearted pledge-breakers will rupture the Democratic party, and the Republican press comes along, republishes said railroad-coin articles, and with a flourish say the Democratic party is dead, and the howl raised by the true Democratic press of the State has bursted the party.

A Favorite Notion.

San Francisco Examiner.]

It is a favorite notion of the politician that he knows precisely what ought to be done with the public money.

New Democracy.

Toledo Telegram.]

The Judge [Hoadly] cannot consent to have it said that he was an anti-slavery Republican, a good war-for-the-Union Republican, and then dropped his principles and went over to embrace the pro-slavery Democrats, the Democrats who wore butternut shell breastpins during the war and looked solemn as midnight when the Boys in Blue won a victory. Demagogue and unscrupulous as he may be, that kind of a change of base is just a little shocking to the nerves of the office-hunting political chameleon and he seeks to shield himself and satisfy his elastic conscience by pretending that he is the leader and exponent of a "New Democracy," a revised and improved edition, as it were, and instead of "Jeffersonian," or "Jacksonian Democracy," it must hereafter be known as "Hoadly Democracy."

The Political Aspect.

Stockton Herald.]

As to the political aspect of the situation, it may safely be said that the Republican newspapers have hurt their party more by the support which they have given Carpenter and Humphreys than the treachery of those two rascals has injured the Democratic party.

A Little Backward.

Kansas City Journal.]

Speaking of Judge Hoadly the New York Tribune says that he is like his party, a little backward in coming forward on the tariff question.

A Rich Gift to the Queen.

From the Trenton Times.]

What a sweet revenge it would be if this country would "assist" its broken-down politicians to emigrate to England.

Fashion News.

From the Oil City Derrick.]

Pantaloons will be worn longer in July than in June—one day longer.

A Loser Churl's View.

From the Philadelphia Times.]

There should be a dueling ground with graveyard annex in the Virginia Penitentiary.

Why We Advertise.

FIRST—Because we want to let the people know that we have always been selling all goods at twenty-five per cent. less than any other house in the city.
SECOND—Because we warrant all goods as represented, and never resort to deception in order to make a sale.
THIRD—Because we have determined to make a still larger reduction in all
Spring and Summer Millinery Goods,
As we are determined to close them out before the middle of July.
FOURTH—Because we are determined to do a big business, even during the "dull" season, and have adopted the motto of "quick, cash sales and small profits."
FIFTH—Because we have the largest lot of sea-shell and other shade hats in the city, and the people must have them cheap before they go to the seashore.
SIXTH—Because we must make room for the earliest and most fashionable stock of millinery for the FALL TRADE ever brought to this city.
EVENTH—Because we carry the leading stock, of all sizes and colors, of warranted
ALL-SILK RIBBONS.
EIGHTH—Because we want the people to know that we do not keep cotton or mixed goods to palm off on unsuspecting customers as first class.
NINTH—Because we can offer, at prices that are below all competition, the best-assorted line of ladies', children's and infants'
FURNISHING GOODS
To be found in the city.
TENTH—Because we want all the ladies to call and see us and examine our goods and prices and compare with other houses in the same line of business.

Printing and Binding

There is nothing in the Printing and Binding line which the TIMES-MIRROR Printing, Binding and Ruling House, the oldest and largest in Southern California, is not prep ared to execute in a manner equal to that of any office in the State. Books, magazines and pamphlets bound in Turkish leather, Morocco, cloth, sheepskin, or in any style desired. Our work is guaranteed to be equal to that done in San Francisco.

A Revision of Figures Needed.

From the San Diego Union.]

EDITOR UNION: I inclose a clipping from the Sun of your city, and would ask you if the figures are correct. Several of my lady acquaintances wish to know if it can be possible they are living in such a benighted country.

Cajon, San Diego county, July 15.

The Courier-Journal of Louisville refers to the Record-Union San Francisco correspondent's account of a ladies' riding party, and the attempt to move the cavalcade in certain military order, and the disastrous result that followed, in which a young lady from Kentucky was landed, head down, on the ground. The Courier-Journal says Kentucky girls usually ride well, but are not in the habit of performing military maneuvers on horseback. Probably that is so, and while they are possibly better horsewomen than our California maidens, there is one thing the latter can do and put the Kentucky girls to a blush—read and write; for it is shown that about 125,000 of the sex in the Bourbon State do not know their A B C's.—[Sacramento Record-Union.

It is also shown by the census of 1880 that 88,646 California girls (white) between the ages of ten and twenty-one, cannot read or write. The census also shows that 162,053 California women over twenty-one years of age cannot read. We suggest to the Sacramento newspaper an attentive reading of the story about glass houses and stones.—[Louisville Courier Journal.

The figures in both cases will bear revision. Turning to the statistics of illiteracy in the census of 1880, we find the following facts:

California has, enumerated as "white" persons, between the ages of ten and fourteen, 821 boys and 696 girls "unable to write." Between the ages of fifteen and twenty there are 1221 boys and 727 girls "unable to write." Over the age of twenty-one there are 12,615 men and 10,010 women "unable to write." The total number of "white" persons in California, of both sexes and all ages above ten years, who cannot write is 26,090. This is four and four-tenths per cent. of the whole white population of the State.

Kentucky has, enumerated as "white" persons, between the ages of ten and fourteen, 30,524 boys and 25,034 girls "unable to write." Between the ages of fifteen and twenty, there are 17,954 boys and 16,262 girls "unable to write." Over the age of twenty-one, there are 54,956 men and 69,767 women "unable to write." The total number of "white" persons in Kentucky, of both sexes and all ages above ten years, who cannot write, is 214,497. This is 22 per cent. of the whole white population of the State.

In the Census statistics of illiteracy the number of persons of all ages over ten years who can neither read nor write, is not classified by color and sex.

A Practical Illustration by Peter Cooper.

New York Evening Post.]

Mr. Cooper was always a careful and prudent business man. He was opposed to the methods of many merchants who launch out in extravagant enterprises on borrowed money, for which they paid extravagant rates of interest. Once, while talking about a project with an acquaintance, the latter said he would have to borrow the money for six months, paying interest at three per cent. per month. "Why do you borrow for so short a time?" Mr. Cooper asked. "Because the brokers will not negotiate bills for longer," "Well, if you wish," said Mr. Cooper, "I will discount your note at that rate for three years." "Are you in earnest?" asked the would-be borrower. "Certainly I am. I will discount your note for $10,000 for three years at that rate. Will you do it?" "Of course I will, said the merchant. "Very well," said Mr. Cooper, "just sign this note for $10,000, payable in three years, and give me your check for $800, and the transaction is complete." "But where is the money for me?" asked the astonished merchant. "You don't get any money," was the reply. "Your interest for thirty-six months, at 3 per centum per month, amounts to 108 per centum, or $10,800; therefore, your check for $800 just makes us even." The force of this practical illustration of the folly of paying such an exorbitant price for the use of money was such that the merchant determined never to borrow at such ruinous rates, and he frequently used to say that nothing could have so fully convinced him as this rather humorous proposal by Mr. Cooper.

Hardly is the big East river bridge dedicated before a suit is brought contesting its legality, on the ground that it obstructed navigation, which is contrary to the act of Congress authorizing its construction. This act expressly declares that it shall not "obstruct, repair or injuriously modify the navigation of the river." It is claimed by nautical men that vessels of over 500 tons can not pass under the bridge without taking down, or striking, as it is technically called, all their upper masts and spars. The defense insists that the approval of the plans by the Secretary of War settles the thing. The suit will come up at the October term of the United States Supreme Court.

From the Tomstone papers we learn that the parties who robbed Mark's store rode stolen horses, which they obtained from a ranch down towards Benson. The taller man of the two was a young man, dressed in a light suit of clothes, Mexican sombrero and boots. The portion of his face not concealed by the handkerchief was noticed to be very red. He was over six feet in hight and proportionately built. The other was an elderly man, with full chin whiskers and somewhat below the medium hight. No parties answering the description of the highwaymen had been noticed about Contention previous to the robbery, and it is thought they were from a distance.

The Bodie Free Press says the surface of Mono lake is now nearly covered over with flies that lay the eggs that the Indians eat with so much relish, and in another month "kitchavy" will be plentiful and the Piute happy. A great many Indians are now at the lake gathering food for the winter.

A gentleman who came down from the Tahoe Hot Springs lately says that the fishing at that point is better now than it has been at any time this season. Large catches are being made there daily.

PACIFIC COAST NEWS.

Although the immigration to California has been unprecedentedly heavy this year, there has not been for a long time such a scarcity of labor in the harvest field.

The Napa Register complains that the Insane Asylum at that place is filled beyond reasonable limits with patients, and they are still coming.

Frederick Miller and wife have brought suit in the Superior Court, San Francisco, against Joseph B. Fayaid for $10,000 damages, charging that their son sustained injuries in that sum by a severe beating at the hands of defendant.

The California Barrel Company has filed articles of incorporation. Its chief place of business will be San Francisco. The capital stock is $250,000.

It is reported that a Mrs. Smith of Oakdale, Cal., has deserted her husband and eloped with a Mexican boy.

J. F. McDowell, a farmer in the Moquelumnes grant, lost the sight of one of his eyes last week by a piece of scale from a rusty hatchet flying into it.

The fifth and last child of the ill-fated Rogel family, of Oakland, died of diphtheria on Tuesday night. All the five children died within two weeks. The bereaved mother is crushed with her terrible affliction, and her reason is despaired of.

The Reno Journal says that because of the temporary annoyance caused by lack of sufficient help to harvest their crops, "many of our prominent farmers declare that they now think it is a mistake to have put a stop to Chinese immigration, and had they another vote, it would be 'No' instead of 'Yes.'"

There are districts in San Joaquin county where the crop averages from thirty to forty bushels per acre.

Lumber is in great demand all along the Middle Yuba. The saw mills can not supply the demand.

The Pullman Sleeping Car Company has raised the price of berths between San Francisco and Truckee from one dollar and a half to two dollars.

John King, a young man employed in the Truckee Lumber Company's box factory, had the ends of three fingers of his right hand taken off by a planer Monday morning last.

The Kern County Californian says that J. B. Haggin's experiments have demonstrated that cotton can be grown there with marked success.

In Oldtown, near San Diego, last week, as we learn from the Sun, some person stole the pickets surrounding the graves in the Protestant cemetery; he then entered the Emmet House and actually stole a coffin, a twelve-foot table and one of the doors from the rooms.

In Stockton Rev. W. B. O'Connor, Catholic priest, has purchased for $6000 four blocks of land just outside the northern boundary of the city to erect a college at a cost of at least $30,000.

The Carson Appeal is authority for the statement that Tallac, Lake Tahoe, is getting to be very tony. A lady who does not change her attire three or four times daily is not regarded as belonging to the ton.

A special train loaded with ice was shipped from Prosser Creek last Monday. The train consisted of fifteen cars, and they were each loaded with twenty tons of frozen comfort for the half-roasted Arizonians. An average of six car-loads daily is shipped to different points on the Southern Pacific Railroad.

The people of San Bernardino are about to construct an immense reservoir in Bear Valley Canyon, to be of masonry, one hundred feet long and forty-five feet high. It will form a lake covering more than a thousand acres, ten to twenty feet deep. The land has been purchased and the dam will be built at once, at an estimated cost of about $10,000. The entire expense of the project will be $35,000.

On Monday, the 9th inst., three miles west of St. Helena, Philip Cuq, a native of France, had his neck broken by a wagon, loaded with wood, being overturned on him. One of the horses broke loose and was seen that day; but it was not until Saturday that his body was discovered buried under the wood, the other horse being still attached to the wagon and almost dead from starvation.

Martinez has a corporation with a soul. The cashier of the bank there has been two months confined at home by critical illness, and the stockholders last week, as we learn by the Contra Costa Gazette, voted him a donation of $1000 in recognition of his able and faithful service to that institution.

Secretary Teller is making a good record on the railroad question. His latest move is to warn the Northern Pacific that they have only three months in which to select their indemnity lands in Wisconsin and Minnesota, and that they will not be allowed to cull the choice land inside the indemnity limits. If his predecessors in the Interior Department had had the same watchful care over the interests of settlers, we should have less cause to-day to mourn over the waste of the public patrimony in lavish land grants.—[S. F. Chronicle.

An Illinois farmer, in a communication to the Germantown Telegraph, says that "fresh, clean hog lard rubbed on any kind of warts on horses or cattle will remove them on three or four applications. I have removed the warts time after time, and have never been able to find the wart for the fourth application. If I should send the Latin name for lard, and tell men to pay fifty cents to the druggist for about two cents' worth of good lard, this remedy would be oftener used. For all wounds or bruises, cracks on cows' teats, etc., it is better than any patent liniments or ointments."

The proposal of Pasteur, a skillful French chemist, to investigate the nature and origin of the cholera in Egypt, ought to lead to good results. Much is known of the nature of the disease, but any new light upon it would be an advantage to the entire civilized world. Smallpox was once a scourge more dreaded than cholera is to-day, but science has shorn it of nearly all its terrors. It may be that a few years will see some equally effective method of checking the ravages of the Asiatic cholera.

It is useless to try to get rested in vacation unless you are happy. Worry, anxiety, fretfulness, destroy the benefit of attempts at recruiting health and strength. Somebody has given three rules which may help some people to be happy: Try to make others happy; be content with little; look on the sunny side of things.

A miser who died not long ago at Crawford, Ga., made a will giving property to relatives and friends, and requesting that $1500 in cash, which he had, should be put under his head and buried with his body. It was done as requested, it is said, and the grave containing the specie remains undisturbed.

The Chicago Tribune earnestly advises the Northern Pacific to behave with common decency on the subject of freights and fares. It's no use. Can't make a silk purse out of a sow's ear, or a gentleman out of a pot wal loper.

FINANCE AND TRADE.

San Francisco Produce Market.

Revised Daily for the Times.

SAN FRANCISCO, July 17.

FLOUR—The inquiry at the moment is confined to local wants. We quote: Best city extra, $5@5 50; medium grades, $4@$4 50; shipping superfine, $3 75@$4 ₱ bbl.

WHEAT—Trade is not active, and there are no promising indications of any immediate movement of magnitude. Shipping grades are quotable at $1 57½@$1 60 for No. 1 quality, while milling lots of old run as high as $1 70 ₱ ctl.

BARLEY—Early to-day a jobbing lot of about 40 tons was sold at 93½c ₱ ctl. Subsequently, however, the situation changed for the better, and some large sales were effected as high as 96½c ₱ ctl. Probably not less than 3000 bags changed ownership at this rate. Anything that will grade as No. 1 will bring 95c, while it is doubtful if many buyers would take much less than 97½c. Brewing keeps moving upward, being quotable at $1 12½@$1 15 ₱ ctl for old quality.

CORN—Light inquiry. We quote the following: California, $1 50@$1 55 for large Yellow, and $1 60@1 62½ for small Yellow. The asking figure for Nebraska is given at $1 50 ₱ ctl.

HAY—Supply abundant. We quote as follows: Alfalfa, $6@9; Wheat, $13@14; Wild Oat, $11@13; Barley, $8@11; Mixed, $6@10 ₱ ton.

POTATOES—Market well supplied. Sales on the wharf range from 50c to $1 ₱ ctl, according to quality.

BEANS—Not active. We quote: Bayos, $5 50; Butter, $4 25@4 50, as to size; Limas, $3 12½; Pea and Small White, $3 12½; Pink, $4 25; Red, $4 ₱ ctl.

FRUIT—Receipts were light to-day, and the market cleaned up well. We quote: Figs, 50c @$1 ₱ box; Apples 40c@$1 25 ₱ box; Pears, 30@ 40c ₱ box, and 50@$1 ₱ box; Bartlett do, $1 25@ $1 50 ₱ box and 50@80c ₱ basket; Apricots, 5@80c ₱ box; Plums, 50@65c for common and 75c@ $1 25 ₱ box for good to choice; Currants, $5 @6 ₱ chest; Raspberries, $1@13 ₱ chest; Strawberries, $10@12; Blackberries, $6@8 ₱ chest; Peaches, 50c@90c ₱ box and 60@85c ₱ bskt for common; Crawford do, 85c to $1 25 ₱ basket; Lemons $9@9 50 ₱ box for Sicily; California Lemons, $1@1 50 ₱ box; Mexican Limes, $10@11 ₱ 100; Tamarinds, 12@13c ₱ lb; Bananas, $1 50@2 50 ₱ bunch; California Oranges, $1 25@2 ₱ box; Tahiti do, $20@25 ₱ thousand; Pineapples, $7@8 ₱ doz.

BUTTER—The week opens without any particular change. Arrivals are improving somewhat in quality, but still there is a marked absence of strictly choice consignments. The following are jobbing quotations: Fancy, 25@ 26c; choice, 22@24c; fair to good, 17@21c; inferior lots from country stores, 15@17c; choice firkin, old, 20@22½c; do new, 22@25c; ordinary do, 17@19c; pickled roll, 24@26c; Eastern, 17@20c ₱ lb.

EGGS—Stocks are ample, but many offerings are neglected because of inferior quality. California, 27@29c for good, and 25@26c for fair quality; Utah, 25@27c; Eastern, 24@ 26c; Parallone, 28c ₱ doz.

POULTRY—Receipts to-day were hardly sufficient to make a market, and we continue old rates. We quote as follows: Live Turkeys, gobblers, 24@25c; do Hens, 22@23c; Roosters, $8@8 50 for old and $8 50@10 50 for young; Hens, $8@9; Broilers, $4@$7, according to size; Ducks, $3 50@5 50; Geese, 1 50@$2 ₱ pair.

WOOL—Choice descriptions are in moderate demand. We quote:

Choice Northern Free	22@24c.
Choice Northern Burry	17@18c.
San Joaquin and Coast, choice	16@18c.
San Joaquin and Coast, inferior	13@14c.
San Joaquin and Coast, year's clip	14@18c.

MEATS—Rates for whole carcasses from slaughterers to dealers: Beef—First quality, 8@9c; second quality, 7@7½c; third quality, 6@6½c ₱ lb. Veal—Large Calves, 7@7½c; small ones, 8@9½c ₱ lb. Mutton—Wethers are quotable at 4½@5c, and Ewes at 4@4½c ₱ lb., according to quality. Lamb—Spring is quotable at 5½@6c ₱ lb. Pork—Live Hogs, 7½@7¾c for card, and 7@7½c for soft; dressed do, 10½@10¾c ₱ lb for hard grain Hogs.

BOSTON MARKET.
Corner Fifth and Spring streets, Los Angeles.

THE UNDERSIGNED would respectfully announce to the public that he has just opened a commodious and elegantly fitted-up market at the above named location. I have built a large
ICE CHEST,
And hereafter all meats sold by me will be fresh, tender and juicy. Most people are aware of the fact that, when meat can be kept several days, unexposed to the air, in a cool place, it acquires a better flavor, as all the juices are retained. All who appreciate a clean and attractive market and desire a choice piece of Beef, Mutton, Lamb, Veal or Pork will do well to call. Choice Corn Beef always on hand. Remember that this is the only market in the city where you can get meat fresh and sweet from the ice chest.
A good stock of poultry, butter and eggs on hand at reasonable prices. Also all kinds of fruits and vegetables.

WE BRING GLAD TIDINGS

HEALTH! HEALTH! HEALTH! HEALTH! HEALTH! HEALTH!
HEALTH restored and life prolonged to suffering humanity, by the most wonderful curative agents ever discovered. I invite the sick, no matter what their diseases may be, to call and investigate for themselves before abandoning all hope, for it will cost you nothing. I give no encouragement unless there is a fair prospect of making a cure. I will endeavor to be candid in my opinion, and reasonable in my charges. I claim not to cure everybody, but to cure all that can be cured. I am formerly from New York city, and a graduate of one of the best medical colleges in the United States, and a most thorough Electrician, and have had many years successful practice in the treatment of both acute and chronic diseases. To remove all doubts and convince my patients that I claim nothing but what I am, I refer to my diplomas and the numerous recommendations in my possession, which will always be ready for inspection at my office. I HAVE NO ONE CURE-ALL! nor do I make a hobby of any one mode of treatment. I use electricity or medicines or both, as cases may require. I find the cause of disease, remove it, and nature, assisted by medicinal remedies properly applied, will promote a cure without fail. TO THE LADIES. To the ladies I would say: You, whose sufferings have become intolerable, and who have suffered a thousand deaths from those diseases so common to your sex, give me a call, for I CAN CURE YOU WITHOUT FAIL, and make your lives once again worth living for. And all consultations will be strictly private and confidential. YOUNG MEN. To those young men who are suffering from year to year, and whose vital powers have become impaired, and nervous system unstrung and broken down, and are suffering all the horrors from the effects of youthful follies; COME AND SEE ME. I have a sure preventative of premature decay and early death. To those who from indiscretions have contracted private diseases and are desirous of being cured, come without fail, for I can guarantee you a speedy cure. I treat with success all diseases of the Throat, Lungs, Heart, Stomach, Liver, Head, Nerves, Kidneys, Bladder, Womb, Blood, Affections of the Urinary Organs, Gravel, Piles, Scrofula, Rheumatism, Catarrh, Bronchitis, Dyspepsia, Diseases of the Eye and Ear, etc., etc. Consultation free at my office.

LEGAL.

Summons.

In the Superior Court of the State of California, in and for the County of Los Angeles.

George L. Grinstone, Plaintiff, vs Mary E. Grinstone, Defendant.

ACTION brought in the Superior Court of the State of California, in and for the County of Los Angeles, and the Complaint filed in said County of Los Angeles, in the office of the Clerk of said Superior Court.

The people of the State of California send greeting to Mary E. Grinstone, Defendant.

You are hereby required to appear in an action brought against you by the above named plaintiff in the Superior Court of the State of California, in and for the County of Los Angeles, and to answer the complaint filed therein, within ten days, (exclusive of the day of service) after the service on you of this Summons—if served within this County; or, if served elsewhere, within thirty days—or judgment by default will be taken against you according to the prayer of said Complaint.

The said action is brought to obtain judgment against you; that the bonds of matrimony now existing between George L. Grinstone and Mary E. Grinstone be dissolved, and for costs of suit. Reference is had to complaint for particulars.

And you are hereby notified that if you fail to appear and answer the said Complaint as above required the said Plaintiff will cause your default to be entered and apply to the Court for the relief demanded.

Given under my hand and the Seal of the Superior Court of the State of California, in and for the County of Los Angeles, This 28th day of May, in the year of our Lord one thousand eight hundred and eighty three.

[SEAL.] A. W. POTTS, Clerk.

SHERIFF'S SALE.

UNDER and by virtue of an alias execution duly issued out of the Superior Court of the State of California in and for the county of Los Angeles, on the 29th day of June, 1883, to me directed and delivered on same day, in the case of H. Brinkmeyer vs. A. J. Hechtman et al., case No. 222, for a judgment rendered in said Court, on the 28th day of May, 1883 in favor of said plaintiff, H. Brinkmeyer, and against said defendant, A. J. Hechtman, for the sum of $2,580.95 with interest and accruing costs, I have duly levied upon and shall,

On Saturday the 4th day of August, A. D. 1883,

at 11 o'clock A. M. of said day, proceed to sell at the Courthouse door, on Spring street, in the city of Los Angeles, county of Los Angeles, State of California, at public auction to the highest and best bidder, for cash in U. S. gold coin, to satisfy said judgment, interest, costs and all accruing costs, all the right title and intercst of said defendant, A. J. Hechtman, in and to the following described property, to-wit:

The undivided one-half of that certain lease and all rights accruing, or that may (or shall) have accrued, and all the rights that now, or at the time of the attachment existed thereunder, to or in favor of A. J. Hechtman, in and to the property and premises in said lease described, and every right and demand by said lease vesting in said Hechtman, which lease is described as that executed by John O'Neil to Patrick Kine, of date February 7th, 1878, recorded in Book 4 of Leases, page 252, records of Los Angeles County, running for the period of ten years at the monthly rental of 35 dollars, leasing and demising the following property, viz: That certain lot and premises situated and being in the city of Los Angeles, in the county of Los Angeles, State of California, and described as commencing at Station 1, on Alameda street, the intersection of the north line of the Hospital grounds and the east line of Alameda street, and running along Alameda street north 53½ degrees E. 1 38-100 chains; thence at right angles S. 36½ degrees E. 2.50 chains; thence S. 53½ degrees W. 0.15-100 chains, to the fence of the Hospital grounds; thence along the said fence N. 63 degrees W. 2.76 chains, to the place of beginning. The courses given above being the variation 14 degrees 15 minutes E.

Also all the undivided one-half of the buildings, houses and improvements on the said lot, being the buildings and improvements known as the Kansas City Hotel.

The interest of the said A. J. Hechtman in and to the said lease and premises and improvements appears of record to have vested,

1st—By lease from John O'Neil, hereinbefore described, to Patrick Kine.

2nd—Assignment of last above-mentioned lease by Patrick Kine to W. N. Monroe, of date December 4th, 1879, recorded in Book 70 of Deeds, page 421, (and designated "bill of sale") Los Angeles County records.

3d—Assignment ("Grant, bargain, sale and convey") from W. N. Monroe to Mary Kine, dated December 9th, 1879, recorded in Book 71, said records, page 202, Deeds.

4th—Assignment and sale from Patrick Kine and Mary Kine to Albert Hechtman, of date August 15th 1881, recorded in Book 80 of deeds, page 526, said records, conveying half undivided interest in premises and lease, to all of which reference is had.

Mistaken Idea.

The idea is advanced that the Grand Centra Hotel excels all others in Los Angeles. I hould not be, because, where others charge 15 to $25 for board and room per week, we ask 7 to $10. Again, how could we excel others when we give board alone for $4 per week, when they charge $7? But here are facts which it behooves gentlemen and ladies to read: The Grand Central Hotel was built for the model hotel of Los Angeles. There is gas and water in each room; walnut furniture, spring beds and all modern conveniences. Our prices do not pay, but for sixty days meals will be 25 cents; board will be $4 per week; meal tickets will be sold at $4 50 for twenty-one. Rooms will be from 50 cents to $1 per night, and $3 to $6 per week. We invite custom, but it must be understood that only sober and respectable patrons will be entertained.

Mr. A. Peasley, now of this city, has twice made the ascent of Mt. Davidson, in Nevada, and has planted two flagstaffs at the summit of the famous Comstock mountain.

It is reported that the gallows for McDowell has been taken to the San Bernardino jail and the murderer will probably swing at the date set unless legal technicalities are interposed.

Jose Morales was yesterday brought before Justice Ling on a charge of grand larceny, he having made the serious mistake of stealing a rope with a horse attached to the end of it. Being examined he was held to answer to the charge under bail of $500.

Some weeks ago mention was made of a new and beautiful residence to be erected on Boyle Heights, near Mr. Hollenbeck's place, by an Eastern gentleman. It is now reported that the work of construction will be commenced shortly. Mr. Davis is the name of the owner of the property.

PERSONAL MENTION.

Mr. Theo. Reiser, a leading grape grower of Anaheim, is in the city.

Mr. A. Merriam returned yesterday from a trip of two months to the East.

W. R. Porter, Postmaster at San Bernardino, is a guest at the Cosmopolitan.

A. J. Cadwell, a prominent merchant of Tombstone, A. T., is at the Pico House.

Mrs. Lacy and Mrs. Spence have returned from a visit to the beach at Willmore.

Henry Benecke, of the Simmons Hardware Company of St. Louis, is stopping in Los Angeles a few days.

Mr. J. T. Shaw, of Bloomington, Ill., is visiting the county, and will probably locate here.

Mr. C. Schieffelin has returned from a visit to San Francisco and other points about the Bay.

Col. A. H. Miller and wife leave today for the Grand Encampment of the G. A. R. at Denver.

Messrs. A. Pomeroy, Jno. B. Niles and A. F. George leave to-day for a trip to Catalina Island.

Hon. Moses N. Dunn, a prominent lawyer and politician of Bedford, Ind., is registered at the Pico.

Messrs. Burt and Westbrooke, both well-known citizens of Riverside, are registered at the Cosmopolitan.

Alexander Weil, a well-known property-holder in this city, residing in San Francisco, is registered at the Pico House.

Dr. W. B. Percival, his father and family, from Covington, Ky., have lately arrived in this city and propose to make their home here.

Mrs. Smith, wife of Mr. Du Ray Smith, a former resident of this city, but now of Oakland, is visiting relatives in this city.

Mr. Warren Wilson, of the San Bernardino Index, has been spending the past two days in town and will return home this evening. He reports San Bernardino quiet.

Dr. H. N. Urmy of this city has been made a member of the Finance Committee of the Mutual Self-Endowment and Benevolent Association of America. The committe will meet at Longview, Texas, July 26th. The doctor leaves here Friday for that point.

Mushrooms.

A correspondent, writing from San Juan Capistrano, makes the following inquiries about the mushroom, which may be answered by some of our readers. The cultivation of the mushroom may be yet an important industry in California:

Having noticed in the last issue of the MIRROR a clipping from the San Luis Obispo Tribune about mushrooms, may I ask where could I get a sample of the spawn of some of the large varieties of Truffle which the Tribune mentions? I would like to get some very much.

Burr says that many attempts to propagate the Truffle by artificial means have been made in England and other parts of Europe, but all attempts so far have been attended with unsatisfactory results, if not a total failure.

The Tribune must mean the common mushroom (*Agaricus Campestris*), and not either the Morel (*Morchella Esculenta*) or the common Truffle (*Tubor Cibarium*), the size of which merely exceeds that of a large walnut.

If you know of a better variety of *Esculent Fungi* than our little *Ephemeral Cryptegam* (the common mushroom), oblige and tell me.

Profit in Real Estate.

About four months ago four gentlemen in this city subdivided the San Rafael ranch, north of the city, and placed it on the market. The cost of the land, including the water right and piping the water, has been about $50,000, and already a portion of the tract has been sold in small lots for $75,000, leaving a considerable amount of land yet to dispose of. The gentlemen say they will undoubtedly realize seventy-five per cent. on the original investment, which is quite a handsome return.

Not Gasoline.

The explosive by which two of Mr. Grove's children were burned two days ago was caused by the explosion of a coal-oil can, and not by a gasoline stove as was first stated. The children are said to have either thrown some lighted material into the can, or brought it in some way in contact with fire. The top of the can exploded with a loud noise, and the children were quickly covered with burning fluid. One has since died, but the other is in a fair way to recover. The parents have the hearty sympathy of their many friends in their sad bereavement.

Fruits in Market.

The apricot season is now at its height, and early peaches in large quantities are in the market. The small fruits have been unusually scarce this year, and blackberries and strawberries have commanded good prices. Watermelons are daily arriving and will continue in the market for several weeks. The supply of oranges still holds out well, but the season for this fruit is past and there is but little demand for it.

LUBRICATED LITERATURE

The Rich Oil Districts of Southern California.

Interview with a Man Full of Oily Facts—The Spots Where it is Found—The Work of Development.

In an interview yesterday with Mr. Sutherland Hutton, a TIMES reporter obtained the following information on the oil interests of our county and vicinity:

In response to the inquiry of the scribe as to Mr. Hutton's knowledge of the subject, he said that in his residence of years in the county, constantly prospecting and locating in the various districts, he had made the matter a careful study.

Reporter—What extent of country is there likely to produce oil?

Mr. Hutton — There are about 200 miles, so far as known, extending from Newhall to Santa Barbara and beyond, from a mile to fifty miles in width, if one can judge from surface indications in the shape of oil springs. The general character of the country is extremely rough and broken, being a succession of displaced strata, in some cases standing almost on edge, being composed of alternate sandstone and shale, with an occasional limestone strata. The formation is mostly in the Miocene age, as shown by the fossils found there.

What is the quality of the oil?

The oil on the surface, coming from the springs, is generally a heavy, black, dead oil, but in places, as on the Sespe oil claim the surface oil reaches as high in density as 30 degrees.

How are the lighter or more valuable oils produced?

By boring deep wells. It has been found that the oil gets lighter as the wells go down, the quality reaching as high a grade as forty per cent. at San Fernando, and still higher at Santa Paula. The shallow wells give a fine lubricator, but if put down, say 1000 feet, the oil would be of the quality used in the manufacture of illuminating oil.

Will you please name the localities developed in the oil district?

They are the San Fernando, Camulos, Little Sespe or Santa Paula, and Santa Barbara. The San Fernando may be said to be developed, and the others only partially. In the first four districts oil has been struck, and I know of no instance in the oil belt where by boring they have failed to strike oil.

What places are selected generally in which to begin the work of drilling, near or at the surface springs?

There is no "wild-catting" in this country, nor will there be for many years to come. The location may not be particularly selected.

What are the difficulties met with in drilling in these districts?

They are many and found in the peculiar formation, principally from caving. I know of one case where a driller lost his entire set of tools in the well, and was still able to case it and had a good producing property. Another trouble is the expense incurred in getting the proper machinery from Pennsylvania. This is a very serious consideration, which I hope will soon be obviated.

How much does it here cost to put down a well? Much depends on the driller, but on an average a well of 1000 feet will cost from $5000 to $7000. Some wells, of course, will cost less, and in time, as the country is better understood, the above figures will be greatly reduced.

About how much is a flowing well worth? A well that will flow or pump say 50 barrels per day, being well tested, is worth $100,000, provided the owner has sufficient lee room to operate in, thus preventing others from sinking near the well and sucking it dry.

How is the oil transported to market?

By pipe lines and tank cars, made for the purpose. At present the company operating at Santa Paula are laying a pipe line four inches in diameter to San Buenaventura, a distance of sixteen miles. The Pacific Oil Company have already a two-inch pipe line sixteen miles in length, through which all the oil produced in the San Fernando is transported to the railroad and run in tank cars to the refinery at Newhall.

What is done with most of the oil produced? Some of it goes to the cities and towns on the Pacific Coast to make gas; a part is distilled to make illuminating oils. It is being used extensively in this city as a fuel, and at the Colton Lime Works. I hear a contract has been made by the Pacific Oil Company with a smelting company in the Globe District of Arizona for 1000 barrels a month, to take the place of coke as a fuel.

What is your opinion of the use to be made of the petroleum produced in Southern California?

It is undoubtedly the coming fuel, as it is the best, most economical and perfectly safe. In that case Los Angeles would derive great benefit from its production, and I do not hesitate to say that I believe that Los Angeles will become the great manufacturing town of the Pacific coast. We have every facility for transportation; our mountains are full of low grade ore and other minerals of value, which by the aid of this cheap fuel can be worked to great profit. All the raw products will be put in market here, and in a few years Los Angeles will take her stand with Pittsburgh or Cincinnati as a manufacturing center.

How do you account for the lack of energy heretofore displayed by the residents of this section in not developing this promising oil district?

Lack of knowledge on the subject, low price of oil in the East. The work heretofore done, by men who lack the means of development, hesitation of capitalists to test what seems to be a new thing, the difficulty of obtaining experienced men to do the work, and the gold and silver fever attracting them from this field. But these difficulties are rapidly being overcome, and we may reasonably expect soon to see great returns from the oil field of Southern California.

Newhall Notes.

Correspondence of the TIMES.]

NEWHALL, July 17, 1883.—Forty trunks arrived at the depot from Pennsylvania recently, indicating the arrival of thirty-one more drillers and ten families for the oil region. The oil boom is great, and more oil is now on hand than transportation can be secured for, as oil cars are not as numerous on this coast as yet as other kinds of freight cars. Eighteen more rigs will soon be erected for wells, and there is talk of erecting a 20,000-barrel tank near this place.

The work of harvesting 14,000 acres of grain on the Newhall Ranch is progressing rapidly, although harvest hands are very scarce and work plenty at $2 per day and board. There is no excuse for the idle men that hang around street-corners complaining that there is nothing to do; certainly they have no reason to be idle.

The northern part of Los Angeles county is being rapidly developed, and with wheat, oil and gold mining, is rapidly coming to the front as one of the most prosperous sections of our county.
OBSERVER.

Board of Education.

A special meeting of the Board o Education was held yesterday, as per adjournment. Present—J. N. Hewes, J. W. Hinton, Wm. M. McFadden, and W. P. McDonald.

Mrs. S. V. Clark was granted a first-grade certificate on life diploma, and Wilburn Smith an educational diploma.

The Board then proceeded to revise and adopt the last two years of the grammar school course.

After adopting a portion of suggestions to teachers, the Board adjourned until half-past 9 A. M. to-day.

We learn that the venerable Mr. E. Chapin, of Poway, died on Sunday morning from the effects of drinking by mistake some water in which fly-killing paper had been soaked. He took it to mix some lemonade. The quantity of poison taken was not large, but his age, 81 years, caused it to prove fatal in spite of all that could be done.—[San Diego Union.

Skillful Surgical Operation.

Dr. N. McFarland, of Compton, assisted by Dr. Maynard, of this city, performed an interesting operation at Florence a few days ago. Within the last four months the members of Mr. A. N. Thaxter's family have in turn been prostrated by diphtheria, which culminated in the case of his son Robert in a desperate case of pleuro-pneumonia with accumulation of pus. To facilitate the discharge of the offensive matter the doctors deemed it necessary to make an opening in the child's back for the admission of a suitable tube. The delicate operation was successfully performed and after a piece of the rib was removed four quarts of matter discharged. The boy is doing well and will probably recover.

Board of Supervisors.

WEDNESDAY, July 13, 1883.

Board met pursuant to adjournment. Present, full Board and Clerk.

In the matter of the Kinney road, Messrs. Gardiner, Wells and Patton appeared as attorneys for the respective parties. Argument heard on both sides. Supervisor Reichard reported adversely on the granting of the petition. Mr. Reichard moved to deny the petition. Carried.

San Bernardino Brevities.

San Bernardino Exchanges]

The Board of Equalization are still grappling with their labors.

Billy McDowell is sick or sulky, he has kept his bed for a week past.

The Supervisors have taken the necessary steps for funding the debt of 1880, and the financial muddle will soon be settled, and the money now held in the treasury put into circulation.

Prof. Le Conte, of the University of California, who has been rusticating in San Bernardino for some time past, returned to his home in Berkeley day before yesterday.

The suit of the Lee heirs and their assignees against the Waterman mine comes up again in San Francisco on the 20th of August. Waterman has already put on the war paint and promises to give them a lively fight before they get through with him.

There are now some ten or twelve miners at work in Lytle Creek canyon, some twelve miles above the Glenn ranch, who are reported doing well.

John Glenn, of Lytle Creek, killed a very large mountain sheep at the head of Lytle Creek canyon Monday week. It dressed over 200 pounds, the head and horns alone weighing 42½ pounds.

The very latest mining whispers are to the effect that some rich strikes and locations have been made by not-mentioned parties, within a comparative short distance of town, where there is an abundance of water.

Terrible Accident.

About 5 o'clock yesterday morning, at the Contention mine occurred a sickening accident that will probably result in the death of James Lacey, night shift boss. From Mr. Wallace Corbett, foreman of the mine, a reporter learns the following particulars of the accident: Lacey had gone down on the cage to the first level, and was in the act of stepping from it, when the carman at the second level gave the signal to the engineer to lower the cage. In starting Lacey was caught between the bonnet of the cage and the station timbers, and held in this position for some time. His size, he being a very large man, prevented the descent of the cage. When extricated, he was immediately brought on top and taken to the hospital, where an examination by Dr. Goodfellow disclosed that his chest had been crushed in. There is but the smallest fraction of a chance that he can survive the accident.—[Tombstone Republican.

NATIONAL POLITICS.

Reawakened Interest in the Old Ticket in Indiana.

NEW YORK, July 15.—A day or two ago the brethren were thrown into confusion by an assertion from Hendricks at Omaha that Voorhees had no authority to say he (Hendricks) was not ready to accept the nomination in 1884. Voorhees immediately and meekly published that he did not make the statement on authority, but that in personal interviews Hendricks had repeated that he was a candidate for no office. This is Hendricks' position, Following this Omaha repetition of the now celebrated Turpin interview, comes an elaborate statement of the position of Tilden, given in a Saratoga special to the Times, and as a consequence of the two things the Democratic situation here is badly mixed. There is no disguising the fact that the old ticket has many friends and much strength in Indiana. The Wabash Courier this week, a paper in which the Hendricks-Turpin interview was published, says: "Admitting for the sake of argument that Tilden and Hendricks are feeble, which is a lie, and that public curiosity during the campaign would demand daily health bulletins, their renomination would prove the most vitalizing principle that could be brought to American politics. The election of no other Democrat except Tilden, not even Hendricks himself, would wipe out the fraud of 1876, and until that is done American history will never be symmetrical." Auditor of the State Rice, Secretary of the Democratic Central Committee, is authority for the statement that forty six Democratic papers in Indiana are for the old ticket, and it is well known in the northern part of the State particularly, that McDonald is very weak, by reason of being attorney for the driven-well patentees, whose extortion has embittered the people of that entire section. The Saratoga statement of Tilden's position and Hendrickss' curt screed from Omaha have reawakened interest in the old ticket, and it is very easy to be seen that the Indiana Democracy would require little coaching to be solid for Tilden and Hendricks.

Representative Jewett, of Clarke county, Chairman of the Ways and Means Committee in the last House, says the river county Democrats are for the old ticket. Judge Niblack's name has been mentioned in connection with the Presidential nomination, but he says he does not desire to be considered as in any sense aspiring or dreaming of such a thing, and he would not antagonize either Hendricks or McDonald.

Arthur's Political Plans.

CHICAGO, July 15.—A special from Washington states President Arthur says, in regard to his proposed Western trip, that he can get all the society he wants during the winter, and that he can learn more by a trip to the West than he could by indefinite numbers of seasons at Newport or Long Branch. There is no longer any doubt about the two citizens of New York who are Presidential candidates—Chester A. Arthur and Samuel J. Tilden. There are a good many outward indications that General Arthur has decided to submit himself as a candidate to the Republican National Convention. This is no longer a surmise. The President has not authorized any one to make such an announcement, but he begins to talk it to those with whom he is most intimate. He is also forming plans which unquestionably have in view a broader acquaintance with the people. To prominent Republicans from different parts of the country who have talked with him within two weeks, he has created the impression that he is in the field, and his New York friends no longer make any concealment of the fact. His recent movements in New York politics can all be explained better upon the theory of his candidacy than on any other hypothesis. The details of the trip which he is now arranging tend to show the same way.

John Kelly is for Harmony.

NEW YORK, July 15.—John Kelly said yesterday that he did not desire at present to express any views on the political situation, further than to say that he was strictly in favor of adopting all honorable measures to preserve harmony in the Democratic ranks, so as to insure the election in this State in the fall and in 1884.

Building Notes.

It was stated in the TIMES a few days ago that Messrs. Woodhead & Gay were to build on their lot on Spring street and would transfer their business there. They have sold their land on Spring and are now about to build a two-story store, about 100 feet square, on the corner of Upper Main, Virgin and Alameda streets, which they intend to occupy.

Messrs. Miles Brothers will this fall build their business house on Upper Main street, on what is known as the Mullally property, one square south of the flour mill.

Dr. Higgins, of Anaheim, has bought a lot, fronting 25 feet on Upper Main street by 165 feet deep, next south of the Alameda Hotel, and will this fall erect a two-story brick building thereon, which he will occupy with his drug store.

Man's Inhumanity to Man.

A cheeky individual yesterday entered Smith's Restaurant, on Commercial street, and after calling for the best dishes the house contained, concluded to leave with the cashier only his regrets, but on being forced to part with a portion of his wardrobe as security for his debt, he took the middle of the street, and much to the amusement of the crowd, shouted aloud the inhumanity of man until conveyed to the cooler by the police.

FINE TEAS!

THE above celebrated marks indicate the finest qualities of pure and wholesome tea. Your merchants will keep them if you inquire for them. Such is also the case with all the goods in their line imported by MACONDRAY & CO., of San Francisco, which are full weight, and of superior quality. Their uncolored Japans, English Breakfasts, Formosa Oolongs and Green Teas are of the same character—unsurpassed. my27-3m
